John V DePolo

Unfortunately, a lot of our parents were unaware of it despite the district wide email, but it's the same parents who wouldn't read any email

Nothing more than some initial explaining of the new policy within the first week. No issues since.

It is not difficult to enforce during the school day, but extra-curricular and community events have proven more challenging.

Eileen Doherty - one parent brought an e-bike for his student to ride home. A couple older siblings came to pick up younger siblings

Has not been an issue for PenLake students

Older students picking up younger students in e-bikes or scooters during after school programs.

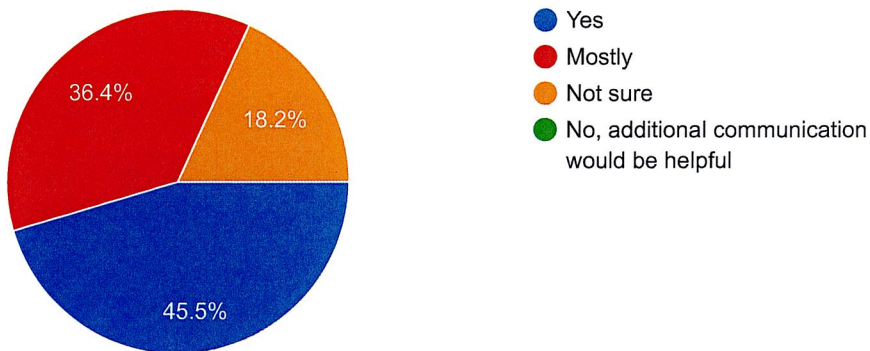

Nancy Salach

4. Do you feel parents and guardians are aware of and understand the policy?

11 responses

If yes, please briefly describe:

3 responses

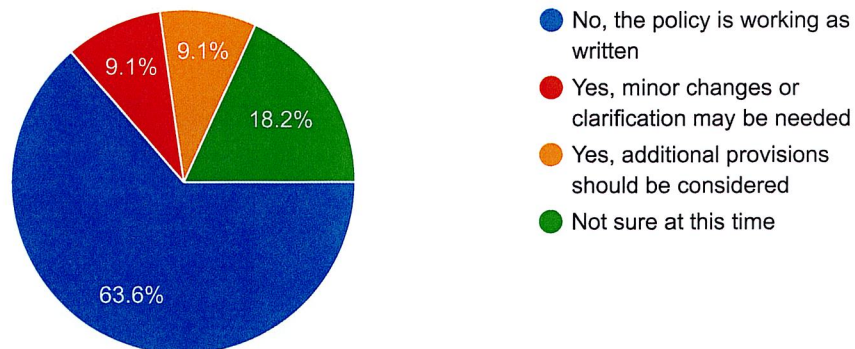

- They like to park them right around the corner or at the ice rink
- Students are parking e-scooters/bikes in surrounding neighborhoods each day
- One or two students left the bike near the school - one in the bushes and another attached to a sign

6. Based on your experience during the first month, do you feel the policy needs to be amended or have anything added to it?

If yes, please briefly explain what you would recommend:

3 responses

I can't speak for other schools, but it's been smooth at Gateway Academy. A lot less push back than anticipated.

It would be great to get the support of the City so that there are clear rules/guidelines for children under a specific age

After hours, should they be allowed?

7. Is there anything else you would like the School Committee to know about how the policy is working?

11 responses

No

Not at this time

It is a great policy and it should continue...

None

Not really, just that we appreciate the support around this issue.

N/A

No - At the elementary level, I have not encountered the same challenges as the upper schools.

Last year, Pentucket Lake was frequently visited by middle school students on the e-bikes, especially during dismissal time. This year, it has not been an issue at all. Thank you.

Not at this time

This is a brilliant policy!! Consistency is key, I have only had to have the parents of 3 students pick up e-scooters one time, explained the policy, they acknowledged it and are all good. Safety first!! Appreciate the support.
